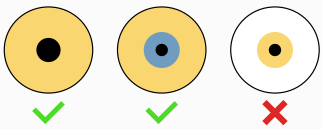
Common Mistakes

Incorrect Eyes/Sclera

Michael’s eyes have **yellow sclera** (sclera is usually the white part of eyes) which some artists interpret as *yellow iris*. This is incorrect! The iris should be drawn either all black or blue depending on which the artist thinks is suitable for their style.



This is the most common mistake by far so please make sure you get this right! 😭

Missing Markings

Michael has stripe markings on different parts of his body that many artists tend to overlook.

The most common one that artists miss are the **stripes on his ears**. Think of his ears as being little VLC traffic cones.
